MLS DEVELOPMENT SERVICES

With our MLS development services, real estate agents and brokers are provided with customized listing details, as well as listing software for online usability, full control over layouts, and integration with external data sources.

LEARN MORE

MLS Development
Chetu customizes MLS (Multiple Listing Service) platforms that support advanced logic searches, tailored search engines, and expandable spreadsheets with APIs from third-party MLS developers.

MLS Integration Solutions
Our integration solutions facilitate the use of JavaScript components in developing real estate applications, as well as provide platform integrations such as Innova and Matrix.

MLS Mobile Solutions
Real estate agents and buyers will get notifications and alerts about events such as price reductions and new listings (in real time), open house times, as well as driving instructions.

MLS Web Services
With our custom MLS web services such as responsive designs, automated featured listings, and flexible desktop options, real estate professionals can seamlessly automate administrative tasks.

REAL ESTATE TRANSACTION STANDARD (RETS)

We develop custom RETS (Real Estate Transaction Standard) solutions that support the seamless transferring of listing data, making easy data management.

LEARN MORE

RETS INTEGRATION
Listing data and up-to-date details are tailor-made and integrated with the use of custom RETS software.

RETS CLIENT SOFTWARE
We leverage RETS client software such as Java, .Net, PHP, C/C++ and Perl to program customized software.

RETS CONNECTOR DESIGN
Our RETS connector design allows for the smooth automation of tasks with templates and a proprietary database.
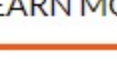

RETS MLS INTEGRATION
With only one language, MLS systems will easily communicate with our customized RETS software solutions.

Real Estate

PROPERTY MANAGEMENT

Our property management software solutions facilitates cloud-based architectures, task automation tools and multi-property management interfaces, with compliance modules for dealing with bank-owned REO.

LEARN MORE

PROPERTY MANAGEMENT SYSTEMS
End-to-end property management systems are built using APIs from vendors such as Buildium, and RealMan.

CRM MANAGEMENT SERVICES
We integrate and design CRM applications and portals for storing moving schedules, marketing materials, contact information, and setting and submitting rules.

CLOUD-BASED MANAGEMENT SYSTEMS
Our custom cloud-based property management solutions provide around-the-clock access to leasing and property information.

ERP SOLUTIONS
Property managers will be able to manage residential and commercial properties with our ERP solutions, with features for reporting, data aggregation, and online leasing.

REAL ESTATE VALUATION ENGINES

Our real estate valuation and analysis software allows for the appraisal of collateral, accessing property and neighborhood information, and generating more qualified leads.

LEARN MORE

DATA ANALYTICS SOFTWARE
Our experts develop data analytics software that enables market insights, investment analysis, and planning of monthly cash flow.

PREDICTIVE ANALYTICS
Our predictive analytics solutions provide a custom interface with precise reports, real-time results, and projections.

VALUATION MODELS
With our custom developed real estate valuation models, algorithms are continually updated with up-to-date statistics.
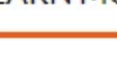

CUSTOM CAPITAL ANALYTICS
We provide reliable transaction data with intelligence on pricing and trends supported by customized capital analytics components.

IDX INTEGRATION SOLUTIONS

We provide comprehensive IDX integration solutions that support boosting e-mail engagement, enhancing CRMs, content automation, forwarding leads to other systems.

LEARN MORE

IDX INTEGRATION SOLUTIONS
Full IDX integration, lead management, lead capture, and enhancing CRMs.
- ✓ Search Engine Reporting
- ✓ Content Automation
- ✓ Registration Prompts

IDX WEBSITE INTEGRATION
Full HTML or framing on branded domains, with optimized IDX content.
- ✓ Fully Responsive Listing Search
- ✓ Instant Listing Alerts
